Pležuh course and competition

For many generations, „pležuh“ was often the only means of transport during the winter months for the inhabitants of the hillsides. Mainly younger people used it - for fun in the snow, for riding down into the valley, for going to school, to mass and the similar. The oral tradition has it that „pležuh“ from the region of Štajerska is more than two hundred years old.

Learning of sliding down the slope is pretty easy. The participants will first attend a 30-45 min course, then we'll have a competition. The competition ends with an award ceremony on the slope and an award for the winner.

Duration: 2 hrs
